

24 Hours of Moab Wallpaper Installation Instructions

(Its's easy, don't worry.)

1. If you don't know what screen resolution you need find out now:
To determine your screen resolution, right click on your desktop, click *Properties*, then click on the *Settings* tab. Then look for the *Screen resolution* setting and cancel out of this window.
2. Choose an image with the resolution that is closest yours, erring on the larger size if it's not an exact match, and a full size version of your Desktop wallpaper will then appear in a new browser window.
3. a.) Right Click on the image to *Set as Desktop Wallpaper* or *Set as Background*. b.) Right-click on the image and choose *Save Image As*, choose a file name (or keep the default file name) and save it somewhere on your computer's hard-drive (and remember where you put it).
4. Your Wallpaper Image will then appear on your desktop. Cool, huh?!
